

1M imidazole solution

Item number: I8092

Specification: 100mL

Save: RT

Valid: 1 year

Product Description:

- Imidazole (Imidazole), is an organic compound, is a diazole, is a molecular structure containing two intermediate nitrogen atoms of five aromatic heterocyclic compounds. Imidazole is acidic as well as basic, and can form salts with strong bases.
- This product is 1M imidazole solution, which can be used for anti-metabolism, anti-histamine; For the purification of histidine label protein.

Product parameters:

English name: Imidazole solution

Concentration: 1M

CAS: 288-32-4

Molecular formula: C₃H₄N

Molecular weight: 68.08

Appearance (character) : colorless liquid

Note:

1. This product is mainly composed of imidazole and deionized water.
2. This product is for scientific research use only. Do not use for medicine, clinical diagnosis or therapy, food or cosmetics. Do not store in ordinary residential areas.
3. For your safety and health, please wear a lab coat and wear disposable gloves and a mask.
