

Vitamin K1 Solution

Cat: V8151

Specification: 0.1mg×10 vials/box

Storage: Store at 2-8°C, and it is valid for 1 year.

Introduction

This product is a microbial culture medium additive, which is a light yellow, clear and transparent solution..

Composition:

Vitamin K1	0.1mg
Distilled water	1ml

Usage Instructions:

In a sterile environment, use a grinding wheel to cut the bottleneck directly below the blue dot on the ampoule bottle. With your back facing the blue dot, break open the ampoule bottle while wearing gloves. When the culture medium has cooled to 45-50°C, perform aseptic procedures. Use a pipette to add an appropriate amount of this product, gently mix it, and set it aside.

Note

1. This product is a supplementary additive for our company's culture medium and should be used accordingly.
2. This product is intended for microbiological testing only.
3. The product information is for reference only. If you have any questions, please call 400-968-6088 for consultation.
4. The products are all for scientific research use only. Do not use it for medical, clinical diagnosis or treatment, food and cosmetics, etc. Do not store them in ordinary residential areas.
5. For your safety and health, please wear laboratory clothes, disposable gloves and masks to operate.
